PAGOSTE

**- Incompatibility of the equipment to the EU standards**

**- insufficient number of certified specialists**

Co-funded by the  
Erasmus+ Programme  
of the European Union

PAGOSTE

The decision within the  
project, we believe, could be  
the following:

- elimination of the main  
disadvantage of traditional forms  
and methods of training future  
skilled workers, namely: the gap  
between theory and practice,  
education and production

- Purchasing of special equipment and  
creation of “Vocational Education Resource  
Center in the field of Design Technologies”

- introduction of innovative educational technologies for  
professional training of specialists, teachers of practical  
training, advanced training and / or training of masters of  
manufacturing training of vocational schools (lyceums,  
centers)

Co-funded by the  
Erasmus+ Programme  
of the European Union

PAGOSTE

- improvement the quality of personnel training, in accordance with the needs and requirements of the labour market in the framework of organizationally different forms of training;

- Development of strategies, models, recommendations for introduction of new mechanisms of cooperation with vocational education institutions and with potential employers, which will allow to increase the places of practice
