General consideration

In summary, what are the main positive aspects of this training experience in your opinion?

20 risposte

This training allowed us to identify and analyze the level of formation of their own competencies and beliefs, and to coordinate further work on improving them.

Na

Provides effective tools for further research

The course is well designed, balanced and clear. The teaching materials are well presented. It is convenient to study the basic materials in Ukrainian and English. And listen to Italian.

Understanding of my some shortcomings (including psychological) in my own professional activities.

Distance learning helps to improve the quality of work of employees and gives impetus to the development of the teacher.

structured teaching material, video lectures, practical examples

In summary, what are the main difficulties you encountered in this training experience?

20 risposte

Na

Terminology

Apart from my own disorganization, I cannot mention any other difficulties. Thanks to the organizers and creators of these courses

The understanding of some terms in English

linguistic

I have no difficulties

The main difficulties were connected with course 1. The most difficult for me was to understand what refers the term metacognition to.

no difficulties arose

Please offer some suggestions on how to improve this learning activity

16 risposte

This learning activity is objective enough and, in my opinion, does not need improvement.

Na

Thank you, I am quite satisfied with the activity. It would be great if this course could be delivered in Ukraine entirely in Ukrainian for wider coverage.

All is well

increase the number of practical examples

Everything is perfect.

-

I think that in the course of training, you need to try first of all to teach something, and not just to question a few additional students.

In summary, what are the main positive aspects of this training experience in your opinion?
Na
Provides effective tools for further research
The course is well designed, balanced and clear. The teaching materials are well presented. It is convenient to study the basic materials in Ukrainian and English. And listen to Italian.
Understanding of my some shortcomings (including psychological) in my own professional activities.
Distance learning helps to improve the quality of work of employees and gives impetus to the development of the teacher.
structured teaching material, video lectures, practical examples
It was useful to reflect on my strategic competences.
The training will help me in my work
The study of competencies is useful for my scientific research.
In my opinion the main positive aspects were theoretical basis of teaching professional activity, the structure and the scales of the main component' evaluations.
Accessibility, compliance of the content with the topic, the possibility of self-development
The training provided an opportunity to consider in more detail the issue related to competencies, self-perception, inclinations, abilities, self-esteem and strategic professional competencies
можливість познайомитися з досвідом колег
The main positive aspects of this training experience is to define the convictions' perception in order to improve own levels.
This training allowed us to identify and analyze the level of formation of their own competencies and beliefs, and to coordinate further work on improving them.
This training allowed me to identify and analyze the level of my competencies and helped to see what else I need to work on.
This training allowed us to identify and analyze the level of formation of their own competencies and beliefs, and to coordinate further work on improving them.
This training allowed us to identify and analyze the level of formation of their own competencies and beliefs, and to coordinate further work on improving them.
Opportunity to implement the experience gained in the work
This course allowed me to look at pedagogy from a different perspective and helped me strengthen my weaknesses in terms of communication at the workplace, as well as allowed me to identify prospects for self-development

In summary, what are the main difficulties you encountered in this training experience?
Na

linguistic
I have no difficulties
The main difficulties were connected with course 1. The most difficult for me was to understand what refers the term metacognition to.
no difficulties arose
It was not clear what this course was intended for even after the end of the 1st module. After finishing the 2nd module, I realized that we passed the questionnaire, which was useful for our teacher, for his research.
The main difficulties were limited communication with tutors, unknown dates to finish course 1, different languages for learning and evaluating
Vague assignment for the second year
There were no difficulties
я не отримала достатніх відомостей про сам інструмент, які мене цікавили як психодіагноста
No difficulties.
There were no difficulties in the training process. Everything worked perfectly. Everything was understandable.
In the beginning, there were some difficulties, but in the course of work I figured out everything.
There were no particular difficulties in the learning process
There were no particular difficulties in the learning process.
Sometimes it was difficult to meet deadlines
A different approach (Italian) to the understanding of pedagogy as a science. More psychology and less pedagogy as forms, methods and techniques of teaching and conveying information to students

I think that in the course of training, you need to try first of all to teach something, and not just to question a few additional students.
Start to communicate with colleagues who are learning; give feedbacks about results of their learning.
Everything was organized logically, consistently and at a high professional level.
додати інформацію про інструмент, яка є корисною не лише для користувачів
Of course, if you add more clarifying questions to the test, the result will be more accurate, but in my opinion, this learning activity is objective enough and does not need improvement.
In this learning activitys everything is fine, I'd not change anything.
This learning activity is objective enough and, in my opinion, does not need improvement.
This learning activity is objective enough and, in my opinion, does not need improvement.
Set more flexible deadlines
the concept of training, in my opinion, should be more focused on pedagogical aspects rather than psychology
