

STUDY VISITS OF STUDENTS VOCATIONAL TEACHER EDUCATION IN GERMANY: STRENGTHS AND WEAKNESSES

(13.11.2022-26.11.2022, including arrival and departure
University of Konstanz)

Target group: students of the Ukrainian partner-HEIs who are enrolled on the daytime department and have intentions to pursue a career as a vocational teacher

Goal: to introduce the students to the practical experience of the University of Konstanz on the implementation of effective cooperation in vocational teacher training that concerns teaching and research.

Number of students: two per higher education institution (generally eight)

Duration: 14 days, including arrival and departure

Expected outcomes: students

- acquire the necessary knowledge on the functioning of cooperation in vocational teacher training that concerns teaching and research at the University of Konstanz;
- contribute to establishing partnership governance at the respective HEI (details defined by the respective project team) (e. g. by sharing the experience of having school practice with younger peers; disseminating the gained knowledge etc.);
- can provide students' perspective on the necessary improvement in the vocational teacher training system at the home university;
- can apply gained knowledge and experience in the studies.

Training strategy:

Students are introduced to the teaching and learning processes at the University of Konstanz. From the very beginning, they receive a research assignment, which will help students to concentrate on the essential issues. During their study stay, they receive **systematic inputs** from the organisers on the different aspects of vocational teacher training in Germany.

They combine these inputs with visiting lectures and seminars of their interest to have insights into teaching methods and approaches at the University of Konstanz. Students must visit at least **five lectures** or seminars apart from the input events.

Such activities will enable students to accomplish their research assignments and present the result at the final meeting.

Tasks upon the completion of the study visit: write a report on your experience of the study visit; present or disseminate your experience to your peers during a workshop, conference, chair meeting etc.; contribute to the implementation of the partnership and cooperation mechanisms implemented at your university (as required by the project team at your university); apply the gained knowledge and experience in your studies.

The respective project team of the Ukrainian partner-HEI may add other tasks.

The organisation of selection process is coordinated by the contact person of the respective HEI.

SUNDAY, 13.11.2022**Arrival**

Accommodation: Humboldt-Institute, Mainastr. 172, 78464 Konstanz

MONDAY, 14.11.2022

09:30	Pickup from Humboldt Institute and registration of students
