1. INTRODUCTION

Sustainable Development Plan (SDP) is aimed at ensuring the long-term viability and impact of the PAGOSTE project on the functioning and development of the system for training specialists in vocational education institutions at the National Transport University (NTU).

The SDP involves the development and implementation of a set of measures that will contribute to the development and sustainability of the project's results at NTU based on the principles defined in the Concept¹, and are directed towards continuous improvement and updating of educational programs, enhancing the qualifications of the academic personnel, improving the quality of practical training, developing the foreign language competencies of education seekers, expanding practice bases, ensuring interinstitutional collaboration to support the sustainability of project results (participation in the activities of the online platform "Partner Space 015," using the developed professional standards and partnership assessment tools, collaborating with the Association for the Development of Vocational and Continuous Education, the Ministry of Education and Science in the field of higher and vocational (vocational-technical) education, joint publications), and effectively applying the project's results and the best European experience gained in collaboration with stakeholders.

2. OBJECTIVES OF SDP

1. Continuous updating and improvement of educational and professional programs at the bachelor's and master's levels in the field of specialization 015 "Vocational Education (Transport)".
2. Continuous updating and improvement of the list of educational components of bachelor's and master's level educational and professional programs in the field of specialization 015 "Vocational Education (Transport)".
3. Systematic enhancement of vocational competencies of pedagogical personnel at NTU.
4. Continuous updating and improvement of the content of practical training for bachelor's and master's degree seekers in the field of specialization 015 "Vocational Education (Transport)".
5. Enhancement of foreign language training for future teachers of vocational education using the equipment provided within the framework of the project in the Department of Foreign Philology and Translation.
6. Systematic work of the Committee for Quality Assurance and Development of Teacher Training in Professional Education and Training, with the expansion of the composition of representatives from vocational (vocational-technical) and higher education institutions, research organizations, public organizations, and businesses.
7. Promotion of the specialization 015 "Vocational Education (Transport)" during career guidance events.
8. Dissemination of project achievements on the online platform "Partner Space 015" and on the NTU website.
9. Efforts to engage partner institutions of vocational (vocational-technical) and professional education and learners in the online platform "Partner Space 015".
10. Appliance of educational and methodological materials prepared within the PAGOSTE project for working education seekers using the equipment in the laboratory of the Department of Technical Vehicle Operation and Auto Service.
11. Integration of training materials developed within the PAGOSTE project into the professional development of teaching personnel in vocational (vocational-technical) and professional advanced education institutions.
12. Conducting professional development courses for teaching personnel in vocational (vocational-technical) and professional advanced education institutions.
13. Collaboration with higher education institutions that are partners in the PAGOSTE project to exchange experience in the management of future teachers' vocational education based on partnership.
14. Exploration of new opportunities for applying the project's achievements and acquired experience.

15. Continuous dissemination and promotion of the results and achievements of the PAGOSTE project through the publication of information on internet resources, local media, scientific articles, and educational manuals, as well as during career guidance events.

16. Seeking new ways to collaborate with educational institutions in vocational (vocational-technical) and professional advanced education in the region to further implement the project's results and enhance the quality of teacher training in professional education and training.

3. VALIDITY OF SDP

Five years

4. TARGET AUDIENCES AND DEPARTMENTS THAT WILL BE INVOLVED IN THE SDP IMPLEMENTATION

- Education seekers (bachelors, masters, postgraduates)
- Scientific and pedagogical personnel of the National Transport University
- University administration
- Engineers, employees, and support personnel of the university
- Teaching personnel of vocational and professional advanced education institutions
- Other stakeholders

5. PROJECT RESULTS FOR WHICH SUSTAINABILITY MEASURES ARE BEING DEVELOPED

5.1. NATIONAL LEVEL PROJECT RESULTS

5.1.1 TOOLS FOR ANALYSING THE NEEDS OF TARGET GROUPS

In the course of the consortium's work on the first work package "Analysis of Vocational Teacher Training Management", tools (questionnaires) were developed to study the needs and expectations of the main target groups regarding cooperation and partnership in vocational education. The leader of the first work package and responsible for its implementation, including the development of analysis tools, is the Institute of Vocational Education and Training (IVET) of the National Academy of Pedagogical Sciences of Ukraine. The target groups are: university teachers and students, teachers and students of vocational education institutions.

The results of the survey conducted by the NTU working group among its target groups were taken into account when developing the institutional document - the Concept of Development of the System of Vocational Education and Training at National Transport University on the Basis of Partnership.

Co-funded by the
Erasmus+ Programme
of the European Union

In the future, these tools will be used to improve the system of training teachers of vocational education and training at National Transport University on the basis of partnership.

5.1.2 STUDYING THE EU EXPERIENCE IN THE FIELD OF VOCATIONAL EDUCATION MANAGEMENT AND THE STATE OF COMPETENCES OF VOCATIONAL EDUCATION TEACHERS IN UKRAINE

The information gained from studying the experience of European partner universities became the basis for modernizing and updating the curricula of bachelor's and master's degrees in the speciality 015 "Vocational Education", in particular in terms of practical training, the ratio of professional (technical) and pedagogical training disciplines, as well as for building a mechanism of partnerships between NTU and stakeholders in the training of future vocational teachers.

5.1.3 WEB PLATFORM "PARTNER SPACE 015"

Within the framework of the project, the consortium developed the web platform "Partner Space 015", which will serve as a central information exchange centre for vocational schools. The leader of the web platform development is the IET of the NAES of Ukraine.

The Platform contains the following information:

1. Profiles of higher education and vocational education institutions with detailed information about their mission, goals, programmes, means and achievements.
2. Feedback from students, personnel and other stakeholders. This feedback will be used to assess the quality and effectiveness of educational programmes and practice websites.
3. A database of VET, professional pre-university and higher education institutions and facilities, which is a valuable resource for students, teachers, government officials and other stakeholders, providing quick access to key information about these institutions.
4. Profiles of teachers of higher education, vocational pre-university and VET institutions. This information will facilitate cooperation, knowledge sharing and networking between personnel, creating opportunities for professional development.
5. Information on grant programmes available for VET institutions, vocational pre- and higher education, teachers and students. This information will help stakeholders to identify funding opportunities, promote innovation and improve the quality of education of future VET teachers.

The information submitted by NTU to the platform will be updated regularly.

5.1.4 UPDATING THE VOCATIONAL EDUCATION STANDARD "VOCATIONAL TEACHER"

Within the framework of the IPT project, the National Academy of Education and Science of Ukraine updated and approved amendments to the Vocational Education Standard "Vocational Teacher".

Target groups: teachers of vocational education institutions, teachers of higher education institutions.

The document is disseminated in various ways, including roundtables, seminars, conferences, digital platforms and the official website of the National Qualifications Agency. These dissemination activities facilitate knowledge sharing, gather feedback and encourage stakeholders. Stakeholder engagement is intended to ensure the relevance and effectiveness of the professional standard.

The professional standard is binding as an official regulation.

The risks associated with the shortage of VET teachers in the labour market and, as a result, with the application of the amended professional standard are addressed through the creation of a support plan.

This plan highlights cooperation with industry partners, internship programmes and professional and pedagogical mentoring. The implementation of these steps is a priority to overcome the shortage of teaching personnel in vocational education and training institutions.

5.1.5 ASSOCIATION FOR THE DEVELOPMENT OF PROFESSIONAL AND CONTINUING EDUCATION

An important outcome of the project is the establishment of the Association for Vocational and Continuing Education (AVCE), which plays an important role in knowledge transfer and cooperation in the vocational education sector. The Ukrainian Engineering and Pedagogical Academy, Kharkiv (UIPA), is the leader of the Association.

Target groups: teachers of higher education institutions, teachers of vocational higher education institutions, teachers of VET institutions, heads of higher, vocational higher and vocational education institutions.

The ARPD serves as a network for university personnel to connect, share best practices, engage in research collaboration, and represent the interests of teacher education in policy dialogue. The benefits of joining ARPTE include:

Knowledge transfer: ARVET will facilitate the exchange of knowledge, experience and innovative practices between VET, higher education and higher education personnel through conferences, webinars and workshops, thus providing ARVET members with opportunities to improve their professional skills through, among other things, self-education and to keep abreast of the latest developments in VET.

Professional development: The Association provides opportunities for professional development, including, in particular, training seminars. This initiative contributes to the improvement of the qualifications and professional competence of the University's teachers, enabling them to provide high quality educational services and support their own professional growth.

Research cooperation: The ARPTE promotes research cooperation between Ukrainian higher education institutions and foreign institutions, facilitating interdisciplinary research and joint research projects. In this way, the association contributes to the acquisition of new knowledge by stakeholders and the development of professional teacher education.

Representing the interests of VET teachers and in-service training: ARPTE members can formulate their needs and expectations from the policies implemented by the MES of Ukraine and be involved in discussions of MES initiatives in the field of vocational education.

Key performance indicators (KPIs) of the involvement of teachers and administrators of higher, vocational pre-university and vocational education institutions in the ARVET include the number of activities proposed, the frequency of meetings. These indicators will be monitored to assess the impact and participation of the ARPVE in facilitating knowledge transfer, promoting research cooperation, improving policy dialogue and strengthening the vocational education ecosystem.

5.2. INSTITUTIONAL LEVEL PROJECT RESULTS

5.2.1 THE CONCEPT OF DEVELOPING A SYSTEM FOR TRAINING TEACHERS OF VOCATIONAL EDUCATION AND TRAINING AT NATIONAL TRANSPORT UNIVERSITY ON THE BASIS OF PARTNERSHIP

Implementation of institutional changes in the training of future vocational teachers at NTU required the development of an appropriate institutional document. This document was the Concept for the Development of the System of Vocational Education and Training Teachers' Training at National Transport University on the Basis of Partnership. The Concept was approved by the decision of the Academic Council of the Faculty of Economics and Law of National Transport University (Minutes No. 1 of 30 August 2021).

The concept of development of the system of training teachers of vocational education and training at the National Transport University on the basis of partnership was developed in the framework of the Erasmus + project: KA2 CBHE "New management mechanisms based on partnership and standardization of training of teachers of vocational education in Ukraine" - 1-DE-EPPKA2-CBHE-SP) considering the regulations of:

1) The laws of Ukraine: "On education"; "On higher education"; "On public-private partnership", "On vocational (vocational - technical) education"; "On vocational development of the employees";

2) normative legal acts of Ukraine: Order of the Ministry of Education and Science of Ukraine "On approval of the Regulations on the dual form of vocational (vocational-technical) education" № 1551 of 12.12.2019; Order of the Ministry of Education and Science of Ukraine On approval of the concept of development of pedagogical education. Order of the Ministry of Education and Science of Ukraine № 776 dated July 16, 2018; Order of the Ministry of Education and Science of Ukraine "On approval of the standard of higher education in the specialty 015" Vocational education (by specialization) for the first (bachelor's) level of higher education "№1460 from 21.11.2019; Order of the Ministry of Education and Science of Ukraine "On approval of the standard of higher education in the specialty 015" Professional education (by specialization) for the second (master's) level of higher education "№1435 from 11.18.2019; Order of the Cabinet of Ministers of Ukraine "On approval of the Concept of implementation of state policy in the field of vocational (vocational-technical)

Co-funded by the
Erasmus+ Programme
of the European Union

education" Modern vocational (vocational-technical) education "for the period up to 2027"
№ 419-r of June 12, 2019

3) internal status of NTU: Development Strategy of the National Transport University for 2019-2025; Internationalization Strategy of the National Transport University; Regulations on the implementation of projects of EU international cooperation programs and grant management at the National Transport University; Regulations on the organization of the educational process at the National Transport University; Regulations on the system of internal quality assurance of higher education (new edition); Regulations on stakeholders of educational programs of the National Transport University; Regulations on postgraduate education at NTU; Regulations on professional development of specialists; Temporary provision on the procedure for recognition of learning outcomes acquired by students of the National Transport University in non-formal / informal education; Regulations on the practice of NTU students.

The purpose of the Concept: to create conditions for improving the quality and relevance of training of teachers of vocational education and training at NTU on the basis of partnership development.

Target groups: academic personnel of NTU involved in the training of future vocational teachers; deans of faculties of departments involved in the training of future vocational teachers; guarantors of educational programmes at the bachelor's and master's levels; stakeholders.

A mechanism for developing the system of training teachers of vocational education and training at NTU on the basis of partnership has been developed.

The Concept defines the target groups, forms and directions of partnership, organisational, material and technical, and personnel support of the mechanism for developing the system of training of VET teachers at NTU on the basis of partnership, ensuring communication with stakeholders, and the expected impact of cooperation with stakeholders on the quality of training future VET teachers at NTU.

5.2.2 COMMITTEE TO SUPPORT THE QUALITY ASSURANCE AND DEVELOPMENT OF VOCATIONAL EDUCATION AND TRAINING TEACHERS

To implement the mechanism for the development of the system of vocational teacher education and training, an institutional structure was created at NTU on the basis of partnership - the Committee for Supporting Quality Assurance and Development of Vocational Teacher Education and Training.

The Committee is an advisory body and does not have the status of a legal entity. The Committee's activities are carried out on a voluntary basis.

In its activities, the Committee is guided by the Constitution of Ukraine, international treaties ratified by the Verkhovna Rada of Ukraine, the Laws of Ukraine "On Education", "On Higher Education", other regulatory legal acts of Ukraine, the University Charter, and internal regulations governing the activities of NTU. The Committee's activities are transparent and all stakeholders are informed.

The main tasks of the Committee are:

Promoting the improvement of educational programmes and curricula for bachelors and masters in the speciality 015 "Vocational Education (Transport)" with the involvement of representatives of vocational education institutions in accordance with the identified needs;

Providing proposals for improving the programme competences, content, forms and methods of training of higher education students in the educational programme "Vocational Education (Transport)";

Joint development and examination of educational programmes of the first (bachelor's) and second (master's) levels;

Coordination of the activities of the departments to improve the content of theoretical, practical, research training (for masters) of future teachers of vocational education and training;

Establishing partnerships with vocational education institutions, industrial structures for the organisation of practice, internships for future teachers of vocational education and training;

Joint organisation of educational, industrial and pedagogical practice of higher education students majoring in 015 "Vocational Education (Transport)";

Involvement of higher education students in research and teaching activities at the bases of the Committee members.

6. RESPONSIBLE PARTIES FOR IMPLEMENTING THE SDP AND HUMAN RESOURCES

- Committee for Quality Assurance and Professional Education Development Support (systematic review of proposals for updating educational and professional programs at the bachelor's and master's levels, content and organization of internships, engagement of stakeholders in collaborative discussions on current issues related to enhancing the quality of future vocational education instructors at NTU, development of new forms of partnership interactions with stakeholders).
- Departments responsible for the specialty 015 «Vocational Education» (tracking labour market needs, regular updates of topics in graduation qualification papers, refreshing the content of educational components, organizing industrial internships with elements of dual education, arranging pedagogical training at professional and vocational education institutions, collaboration with institutions of professional and vocational education, monitoring the professional development of academic personnel, career guidance efforts).
- Guarantors of educational and professional programs for the specialty 015 «Vocational Education (Transport)» at the bachelor's and master's levels (monitoring labour market demands, making proposals for updating the list of competencies and educational components, studying the experience of collaborative interactions with stakeholders in other educational institutions)

Heads of departments responsible for the educational process in the educational program 015 "Vocational Education (Transport)" at the bachelor's and master's levels (selection of highly qualified academic personnel to ensure the teaching of program disciplines, participation in

Co-funded by the
Erasmus+ Programme
of the European Union

the work of the Committee for Quality Assurance and Professional Education Development Support).

7. THE MAIN STRATEGIC DIRECTIONS FOR SDP IMPLEMENTATION

1. The Work of the Committee for Quality Assurance and Development of teacher education in professional education and training as an institutional structure of NTU.
2. Collaboration with internal stakeholders.
3. Collaboration with external stakeholders.
4. Systematic review and update of educational and professional programs for bachelor's and master's levels in the field of 015 "Vocational Education (Transport)".
5. Professional orientation among school graduates and institutions of professional (vocational-technical) and specialized postgraduate education.
6. Regional impact through collaboration with educational institutions and interested organisations.
7. Promotion and dissemination of project achievements.
8. Exploring new approaches to implementing and applying project achievements and results.

8. GENERAL INFORMATION ABOUT FINANCIAL RESOURCES/EXPENSES AND FUNDING STRATEGY/STRATEGY SEEKING ADDITIONAL FUNDS

1. Search for opportunities to provide paid educational services after the project is completed.
2. Interaction within the project consortium.
3. Self-financing of activities through the university's resources.
4. Involvement of public organisations and volunteers to disseminate information about the project's results.
5. Provision of paid educational services for the professional development of teaching personnel.
6. Participation in consortia and associations to save resources and attract external resources.

ANNEX 1. MAIN COMPONENTS OF THE SUSTAINABLE DEVELOPMENT PLAN (SDP)/ LIST OF KEY ACTIONS

No	Name of Activity	Expected result	Department/ personnel involved	Validity (beginning – ending)	Additional resources (finances, equipment, etc.)	Indicators and metrics of importance	Risks
<i>INSTITUTION LEVEL</i>							
1	Collaboration between NTU and vocational (vocational-technical) and specialized advanced education institutions for the purpose of enhancing the qualifications of vocational education instructors and training within the framework of existing and new partnership agreements	Professional development courses for educational personnel	Center for professional development, retraining, and improvement of managers and specialists at NTU	January, 2022 to December, 2028 (referring to the period of receiving orders for professional development services)	Auditoriums, modern technical laboratories, a pedagogical mastery laboratory, a multimedia language lab, equipment, NTU (or the customer's facilities and equipment for off-site events), teaching personnel, and payment from NTU	<ul style="list-style-type: none"> • Modules for the professional development of vocational education instructors offered by the university; • Agreements made for professional development with vocational (vocational-technical) education institutions and individuals; • The number of conducted sessions (credits per year) 	Threat of military actions intensification in Kyiv and Kyiv region Destruction of NTU's material and technical facilities due to enemy military attack
2	Collaboration between NTU and vocational (vocational-technical) and professional advanced education institutions regarding student internships	Completing industrial and pedagogical internships in vocational (vocational-technical) and professional advanced education institutions	The Department of Philosophy and Pedagogy and other departments at NTU that are graduating for the specialty 015 «Vocational Education»	January, 2022 to December, 2028 (according to the academic schedule)	Premises, equipment of partner institutions of vocational (vocational-technical) or professional advanced education, teaching personnel, and payment from NTU	The number of students undergoing internships in vocational (vocational-technical) or professional advanced education institutions	Threat of intensification of military actions in Kyiv and the Kyiv region; Implementation of anti-epidemic measures due to the emergence of new strains of the coronavirus

3	Updating and improving the educational and professional programs of the specialty 015 «Vocational Education (Transport)» and the educational components of bachelor's and master's levels	"Educational and professional programs of the specialty 015 «Vocational Education (Transport)» at the bachelor's and master's levels, which take into account the modern requirements of Professional Education Standards; Accreditation of educational and professional programs of the specialty 015 «Vocational Education (Transport)» at the bachelor's and master's levels	<ul style="list-style-type: none"> • Department of Philosophy and Pedagogy at NTU, • Committee for the support of quality assurance and development of the training of vocational education and training educators, • Departments responsible for the educational process of preparing future vocational education instructors 	January, 2022 to December, 2028 (annually)	Auditoriums, modern technical laboratories, pedagogical mastery laboratory, multimedia language lab, NTU equipment, teaching personnel, and payment from NTU	<p>Number of updated competencies and learning outcomes;</p> <p>Number of updated and improved educational components;</p> <p>Number of updated modules in educational components;</p> <p>Percentage of curriculum content update</p>	Threat of military actions intensification in Kyiv and Kyiv region Destruction of NTU's material and technical facilities due to enemy military attack
4	Conducting educational seminars and training sessions, roundtable discussions for university academic and teaching personnel	Professional development of university's academic and teaching personnel	Center for professional development, retraining, and improvement of managers and specialists at NTU	January, 2022 to December, 2028 (according to the professional development schedule during the periods: March-May; October-November)	Auditoriums, modern technical laboratories, pedagogical mastery laboratory, multimedia language lab, NTU equipment, teaching personnel, and payment from NTU	<ul style="list-style-type: none"> • Modules for the professional development of vocational education instructors offered by the university; • Agreements made for professional development with vocational (vocational-technical) education institutions and individuals; • The number of conducted sessions (credits per year) 	Threat of military actions intensification in Kyiv and Kyiv region Destruction of NTU's material and technical facilities due to enemy military attack

5.	Research of the effectiveness of updated educational components and educational and professional programs of the specialty 015 «Vocational Education (Transport)» and the educational components at the bachelor's and master's levels	Satisfaction of education seekers, graduates, employers, and individuals who have undergone professional development	<ul style="list-style-type: none"> • Department of Philosophy and Pedagogy at NTU, • Committee for Supporting Quality Assurance and Development of the Training of Vocational Education and Training Educators, • Center for Professional Development, Retraining, and Improvement of Managers and Specialists at NTU 	January, 2022 to December, 2028 (annual surveys of education seekers, graduates, employers) (October-November)	Auditoriums, modern technical laboratories, pedagogical mastery laboratory, multimedia language lab, NTU equipment, teaching personnel, and payment from NTU	<ul style="list-style-type: none"> • Percentage of satisfied individuals among surveyed education seekers, graduates, employers, and those who have undergone professional development. • Percentage of updated topics in qualification works • Accreditation of educational and professional programs of the specialty 015 «Vocational Education (Transport)» at the bachelor's and master's levels 	Threat of military actions intensification in Kyiv and Kyiv region
6.	Involving academic and teaching personnel as well as education seekers in participating in NTU's scientific events	"Presentations and publications of academic and teaching personnel as well as education seekers in the field of specialty 015 «Vocational Education (Transport)»"	Departments that facilitate the educational process for the training of future vocational education teachers	January, 2022 to December, 2028 (in accordance with the completion of an individual annual plan for the teacher)	Auditoriums, modern technical laboratories, pedagogical mastery laboratory, multimedia language lab, NTU equipment, teaching personnel, and payment from NTU	<ul style="list-style-type: none"> - Number of presentations at conferences (including the annual scientific conference of the teaching personnel, graduate students, students, and university personnel from separate structural units); - Number of presentations at national conferences; - Number of presentations at international conferences; - Number of scientific publications in specialized publications based on the experience gained at NTU 	Threat of military actions intensification in Kyiv and Kyiv region Destruction of NTU's material and technical facilities due to enemy military attack

<i>REGIONAL LEVEL</i>

ANNEX 2. TABLE OF RISKS AND METHODS OF MITIGATION

Name, description	Indicators	Target group	Tools	Frequency of updates, dissemination	Risks (level)	Methods to eliminate/mitigate impact
Methodological recommendations for the introduction of partnership-based management mechanisms and standardisation in the training of VET teachers in Ukraine	Number of disseminations of information on the implementation of the Guidelines	Teachers and administration of VET institutions, research and teaching staff and administration of NTU, teachers and administration, teachers of Ukrainian higher education institutions	NTU website, NTU PAGOSTE project website, social media, conferences, seminars, webinars, roundtables, etc.	At a minimum of two events per year	Impossibility of holding events in person due to logistical disruptions and threats to the lives and health of participants due to the war (high)	Holding events in an online format
Web platform "Partner Space 015"	1) Number of users (teachers, students, university administration; students, teachers, administration of vocational schools in the region) 2) Number of publications per year, not less than 12	Teachers and management of VET institutions, students, research and teaching staff and administration of NTU	Website, social media, conferences, seminars, webinars, round tables, etc.	1) Not specified 2) Within 5 years	1) Low level of motivation of target audience representatives to join the platform (medium)	1) Conducting information campaigns aimed at popularising the platform 2) Use of platform tools to organise student internships and graduate employment
Association for the Development of Professional and Continuing Education	Number of disseminations of information about the Association's activities	Teachers and management of VET institutions, students, researchers and	Dissemination of information through the website, social networks,	Not specified	1) Impossibility of holding events in person due to logistical disruptions and threats to the lives and health of participants	1) Participation in online events 2) Conducting information campaigns aimed at popularising the

		administration of NTU	conferences, seminars, webinars, round tables, etc.		due to the war (high) 2) Low level of motivation of the target audience (medium)	Association for the Development of Professional and Continuing Education
Professional standard of the profession 3340 "Vocational teacher"	1) Development and updating of the EPP 2) Number of disseminations of information	Teachers and management of VET institutions, students, research and teaching staff and administration of NTU	It is obligatory. Information campaign on its application	1) Not specified 2) At least once a year	1) Delay in the development and updating of the EPP (low) 2) Impossibility to hold events in person due to logistical disruptions and threats to the life and health of participants due to the war (high)	1). Use of a system of disciplinary influence on the developers of the APP; 2) Holding events in an online format
Committee to support quality assurance and development of vocational teacher education and training.	1) Number of meetings with the involvement of stakeholders 2) Percentage of improvement in semester grades of students majoring in 015 "Vocational Education (Transport)"	Teachers and management of VET institutions, students, research and teaching staff, and NTU administration	It is obligatory. Improvement of the educational process	1) At least 2 per year 2) Every semester	1) Difficulties for stakeholders to participate in the Committee meetings in person (medium) 2) Insurmountable difficulties in studying due to the threat of military operations in the region (medium)	1) Holding meetings with stakeholders in a mixed or remote format 2) Conducting classes in a mixed or remote format
Tools for determining the current state of partnership at the University and assessing the strategic competences required for establishing partnerships	Annual survey of target groups	Teachers and management of VET institutions, students, research and teaching staff and NTU administration	Conducting a survey directly during classes with students, using distance learning technologies, posting questionnaires on the website, social networks	1) At least once a year for at least 5 years	Low number (in per cent) of survey participants (medium)	Holding information sessions on the importance of the survey results for improving the educational process and further cooperation with stakeholders

ANNEX 3. STRUCTURING AND DEFINING PBG STRATEGIES

Name of the leading institution	Location of the leading institutions (concrete address)	Responsible persons in the leading institution (name, position)	Name of the cooperating institutions	Location of the cooperating institution (concrete address)	Responsible persons in the cooperating institutions (name, position)	Date of signing the agreement	Duration of the cooperation	Names of the persons who have concluded the contract	Comments to the agreement	Fields of cooperations (concrete description – f.e.: internship for students in the field of mechanics..)	Advantages of the cooperation for the partners involved (keyword-like, clear listing)
National Transport University	1 Mykhaila Omelianovycha-Pavlenka Street, Kyiv 01010, Ukraine	Mykola DMYTRYCHENKO Acting Rector	Educational-scientific center of vocational-technical education National academy of pedagogical sciences of Ukraine	98-A Stolychne shose, Kyiv 03045, Ukraine	Dmytro HOMENIUK , Director	04 April 2023	unlimited	1.
