

STUDY VISITS OF STUDENTS

THE VET SYSTEM IN ITALY: EXPERIENCES AND IDEAS FOR VOCATIONAL TEACHER TRAINING

(13.11.2022-26.11.2022, including arrival and departure,
University of Roma Tre)

Target group: students of the Ukrainian partner-HEIs who are enrolled on the daytime department and have intentions to pursue a career as a vocational teacher

Goal: to introduce the students to the system vocational training in Italy and to the paths through which teachers and trainers involved in technical and vocational training build their professional competence.

Number of students: 8

Duration: 14 days, including arrival and departure

Expected outcomes: students

- acquire knowledge on the vocational training system and teacher training processes in Italy;
- contribute to the establishing of partnership-governance at the respective HEI (details defined by the respective project team) (e. g. by sharing the experience of having school practice with younger peers; disseminating the gained knowledge etc.);
- can provide students' perspective on the necessary improvement in vocational teacher training system at the home university;
- can apply gained knowledge and experience in the studies.

Training strategy: students will be accompanied in the preparation of a small research in the field, aimed at acquiring information through meetings with subjects operating in the field of professional training and the training of teachers and trainers. The basis of the research will be the study of the report "*VET IN ITALY: an overview on the governance of vocational education and training and teacher education for the upper secondary general education*", developed as part of the project. Each meeting will be preceded by an activity of defining objectives, expected results and questions to ask. After each meeting, students will be invited to analyze the information collected and reflect on it. At the end of the study period, students will prepare a collective report.
